Promotional Code: ECMTA

[To use the code, one should access to the website: <https://www.turim-hotels.com> write the code on “Promo Code” and click “Book Now” | “Reserve aqui”]

The Promotional Code is available in Turim Ibéria Hotel and is valid for staying between 25 to 29 of April 2019. Booking is subject to the availability of the hotel at the moment of reservation.

***Important note:** I was told by the manager that those are the maximum prices set up for the ECMTA event. For that purpose, in order to get the promotion, the field “Display offers first” should not be activated so the values agreed (ex. 150 euros for 2 nights, single) will appear immediately.*

However, if at the moment of the reservation, you check the offers clicking on the box “Display offers first”, you may find cheaper prices compared with those agreed with the hotel. It all depends on the period you book your room.
